The Director's Desk

Future of Harley-Davidson? Livewire has officially arrived! With an estimated range of 88 to 140 miles and 0 to 60 in three seconds, this is definitely not your father's Harley-Davidson. Scheduled for a Fall of 2019 release and pricing starting at \$29,799.00 you can pre-order yours today. This bike may be worthy of a test ride. Only time will tell.....Happy Riding! Frank
